

Enter data file name => Bellevue\_Full

With the Bellevue data, these are the three things chosen to track:

- 1: George W. Anderson's total patients and the ratio of the diagnoses given
- 2: Moses G. Leonard's total patients and the ratio of the diagnoses given
- 3: The comparison of illnesses diagnosed to each gender
- 4: George W. Anderson's ratio of patients sent to each site
- 5: Moses G. Leonard's ratio of patients sent to each site
- 6: The distribution of diagnoses by patient sites
